

BANKAMERICA CLUB

SAN FRANCISCO CHAPTER

CHESS CLUB

June 24, 1964

This is to inform you that there will be no meeting on Monday, July 6. Also, because of vacation season, future meetings will be held only if those of you who wish to come will please call me beforehand, on 4627, to announce your intention to attend on that particular evening. Meetings are, as you know, scheduled the 1st and 3rd Monday each month.

Beginning in September, with the 1964/65 Bay Area Industrial Chess League's season, I contemplate entering two teams (the "Kings" and the "Rooks") so as to give a larger group of interested Bankamericans a chance to compete in tournaments.

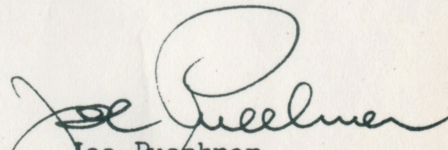

The International Chessmaster, George Koltanowski, will also be back with a special packaged 3-hour, 10-session lecture series (beginners and advanced together).

For beginners: Historical background of chess, basic rules of the game, one common opening and a defense, supervised on-the-spot practice games, simple problems (homework).

For advanced: Queen's Gambit Accepted*, Queen's Gambit Declined*, Ruy Lopez*, Sicilian Defense*, lesson in blindfold chess, supervised on-the-spot practice games, problems (homework).

Details will be announced by circular letter.

These, then, are the highlights of events to come. If you have any questions, and/or suggestions, please feel free to call me (4627) or John Ramos (2002).

Joe Pugchner
Chairman
