THE ACTION

In that whacky game, Noel Renaud came out on top and John Ramirez went on from there to lose to every opponent he played last week. Maybe he was worried about a ticket he may have gotten in L. A. the week before!

Jim Cook, the club's newest addition, started out on the bottom rung and defeated three opponents one after the other to work his way up to the fourth rung in one night's work.

Ivan Vegvary had an on again, off again, time of it but won when it counted as far as his rating points go-- which went up!

Paul Bogosian had a similar type of evening, but at least he won a game for a change. He's been in a losing streak, but perhaps he has snapped it now.

PRECITA VALLEY MEETS COLLE TOMORROW!!

Tomorrow night, the Precita Valley team will be hosted by the Colle Chess Club at 2286 - 46th Avenue. This is our second exhibition match. We lost our first one to Keres by the respectable score of 4-2.

Bill Pattullo, Colle Club director and CFNC treasurer, has some newcomers he'd like to try out on us. Your C.D. told him we would be glad to beat them! Let's do it, men--; the games will count on your rating points.

Those interested in this team match please see the C.D. tonight. Transportation will be arranged for those who need it.

The results of this match will appear in the following Monday or Tuesday San Francisco NEWS.

ANYBODY LIKE TO GO TO JAIL?!?!?

We have been invited to San Quentin along with some four CFNC teams to compete with the inmates there. I have been to San Quentin (as a visitor!) on three or four occasions and it has always proved to be a wonderful experience, win, lose, or draw. They have very good players up there. The exact date has not been set but those wishing to go to San Quentin to play chess with the inmates please see the club director. Transportation will be arranged for those who need it. The time is usually from 10 a.m. to 3 p.m. on Saturdays. Visitors are always treated to a meal at the prison-- this meal is usually served around 3:15 p.m.
