## THE WHITEHEAD BROTHERS

In the last two years, two young lads have come to the forefront of San Francisco chess and both are destined for high honors in national and international chess. Paul Whitehead is 16 years old. His bushy, wild-looking hair belies his gentle and pleasant temperament. By contrast, his neat, pleasant-faced brother Jay, who is 15 years old, is ferocious in his play and can be quite irritating to his opponents. Both are US chessmasters and both have been winning prizes in tournaments.

Recently, in the Berkeley May Day Championship, Paul came in first, tying with Grandmaster Larry Christiansen of Riverside, each scoring three and a half points out of four. In the second round the brothers met, resulting in a hard fought draw in 46 moves. (You can get the games by ordering the bulletin from Max Burkett, 1009 MacArthur, #6, Oakland, CA 94610, cost 75 cents.)

In the same tournament, Paul Whitehead beat Peter Biyiasas, International Chessmaster of Canada, in 52 moves. Here's a game played in the Berkeley event.

White: Paul Whitehead

Black: John Watson
