Dear George,

Thought you might like a copy of this week's column about the National Open, mentioning you as Director.

Please play over the first game, if you wish to see the tournament product of a night's work with the Wing Gambits contained in "Adventures of a Chessmaster".

(I guided Crosby through an examination and evaluation of your treatment of the Wing Gambit, based on your book, just prior to the CCCA Team Olympics. He won two good games with it, both times his opponents played the Sicilian Defense, and he gratefully wishes to acknowledge your share in his success.)

Thanks for the lesson!

Richard Shorman
