## KERES MEMORIAL

A three-day, nine-round competition in memory of Paul Keres was held in Tallin in mid-January with an unusually fast time control for a grandmaster event of thirty minutes per player per game. First prize went to international grandmaster Aivar Gipslis of Latvia, who won five games while drawing four others to score seven points out of nine. Also covering the distance without loss was former world champion Mikhail Tal, finishing only a half point behind. The remaining titled players among the ten participants were international grandmaster Yuri Averbakh, international master Ivo Ney, five points each, and international master Vladas Mikenas, three points.

(Notes translated from "64" No. 3, Jan. 16-22, 1976, pp. 8-9)

(a) Curiously, most opening manuals do not even mention the possibility of this "invitation."

(b) Black has won the opening struggle . . . and six minutes on the clock.

(c) Sooner or later the weakness on K3 will become apparent. White should have considered 14 R-K1 with the idea of B-KB1 (or B-KB3) and N(2)-k4.

(d) Tal does not relish the prosaic win of a pawn by 25 . . . QxPch 26 QxQ NxBch, preferring to sacrifice a second piece for the attack instead.

(e) Parrying the mate threat after 27 . . . Q-R6 but losing decisive material.

(f) White has no compensation for the loss of the exchange in this position and Tal won easily.

### BRILLIANT BREVITY

Schoolgirl Maiya Chiburdanidze of Georgia, already a rated master since she was 12, polished off her Berlorussian rival with explosive finesse in the current USSR Juvenile Chess Championship. The game is recorded in Streamlined coordinate chess notation (files lettered "a" to "h," ranks numbered "1" to "8," always counting from White's lower left corner regardless of whose turn to move; pawn captures designated by file letters only).
